# SANTANDER HOLDINGS USA, INC.

Second Quarter 2022

Fixed Income Investor  
Presentation

# Important Information

This presentation of Santander Holdings USA, Inc. (“SHUSA”) contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 regarding the financial condition, results of operations, business plans and future performance of SHUSA. Words such as “may,” “could,” “should,” “will,” “believe,” “expect,” “anticipate,” “estimate,” “intend,” “plan,” “goal” or similar expressions are intended to indicate forward-looking statements.

In this presentation, we may sometimes refer to certain non-GAAP figures or financial ratios to help illustrate certain concepts. These ratios, each of which is defined in this document, if utilized, may include Pre-Tax Pre-Provision Income, the Tangible Common Equity to Tangible Assets Ratio, and the Texas Ratio. This information supplements our results as reported in accordance with generally accepted accounting principles (“GAAP”) and should not be viewed in isolation from, or as a substitute for, our GAAP results. We believe that this additional information and the reconciliations we provide may be useful to investors, analysts, regulators and others as they evaluate the impact of these items on our results for the periods presented due to the extent to which the items are indicative of our ongoing operations. Where applicable, we provide GAAP reconciliations for such additional information. SHUSA’s subsidiaries include Banco Santander International (“BSI”), Santander Investment Securities Inc. (“SIS”), Santander Securities LLC (“SSLLC”), Amherst Pierpont Securities, LLC (“APS”), Santander Financial Services, Inc. (“SFS”), and Santander Asset Management, LLC, as well as several other subsidiaries.

Although SHUSA believes that the expectations reflected in these forward-looking statements are reasonable as of the date on which the statements are made, these statements are not guarantees of future performance and involve risks and uncertainties based on various factors and assumptions, many of which are beyond SHUSA’s control. Among the factors that could cause SHUSA’s financial performance to differ materially from that suggested by forward-looking statements are: (1) the effects of regulation, actions and/or policies of the Board of Governors of the Federal Reserve System (“Federal Reserve”), the Federal Deposit Insurance Corporation (the “FDIC”), the Office of the Comptroller of the Currency and the Consumer Financial Protection Bureau, and other changes in monetary and fiscal policies and regulations, including policies that affect market interest rates and money supply as well as in the impact of changes in and interpretations of GAAP, the failure to adhere to which could subject SHUSA and/or its subsidiaries to formal or informal regulatory compliance and enforcement actions and result in fines, penalties, restitution and other costs and expenses, changes in our business practice, and reputational harm; (2) SHUSA’s ability to manage credit risk may increase to the extent our loans are concentrated by loan type, industry segment, borrower type or location of the borrower or collateral, and changes in the credit quality of SHUSA’s customers and counterparties; (3) adverse economic conditions in the United States and worldwide, including the extent of recessionary conditions in the U.S. related to COVID-19 and the strength of the U.S. economy in general and regional and local economies in which SHUSA conducts operations in particular, which may affect, among other things, the level of non-performing assets, charge-offs, and credit loss expense; (4) inflation, interest rate, market and monetary fluctuations, including effects from the discontinuation of the London Interbank Offered Rate (“LIBOR”) as an interest rate benchmark, may, among other things, reduce net interest margins, and impact funding sources, revenue and expenses, the value of assets and obligations, and the ability to originate and distribute financial products in the primary and secondary markets; (5) the adverse impact of COVID-19 on our business, financial condition, liquidity, reputation and results of operations; (6) natural or man-made disasters, including pandemics and other significant public health emergencies, outbreaks of hostilities or effects of climate change, and SHUSA’s ability to deal with disruptions caused by such disasters and emergencies; (7) the pursuit of protectionist trade or other related policies, including tariffs and sanctions by the U.S., its global trading partners, and/or other countries, and/or trade disputes generally; (8) adverse movements and volatility in debt and equity capital markets and adverse changes in the securities markets, including those related to the financial condition of significant issuers in SHUSA’s investment portfolio; (9) risks SHUSA faces implementing its growth strategy, including SHUSA’s ability to grow revenue, manage expenses, attract and retain highly-skilled people and raise capital necessary to achieve its business goals and comply with regulatory requirements; (10) SHUSA’s ability to effectively manage its capital and liquidity, including approval of its capital plans by its regulators and its subsidiaries’ ability to continue to pay dividends to it; (11) reduction in SHUSA’s access to funding or increases in the cost of its funding, such as in connection with changes in credit ratings assigned to SHUSA or its subsidiaries, or a significant reduction in customer deposits; (12) the ability to manage risks inherent in our businesses, including through effective use of systems and controls, insurance, derivatives and capital management; (13) SHUSA’s ability to timely develop competitive new products and services in a changing environment that are responsive to the needs of SHUSA’s customers and are profitable to SHUSA, the success of our marketing efforts to customers, and the potential for new products and services to impose additional unexpected costs, losses or other liabilities not anticipated at their initiation, and expose SHUSA to increased operational risk; (14) competitors of SHUSA may have greater financial resources or lower costs, or be subject to different regulatory requirements than SHUSA, may innovate more effectively, or may develop products and technology that enable those competitors to compete more successfully than SHUSA and cause SHUSA to lose business or market share and impact our net income adversely; (15) Santander Consumer USA Inc.’s (“SC’s”) agreement with FCA US LLC (“Stellantis”) may not result in currently anticipated levels of growth; (16) changes in customer spending, investment or savings behavior; (17) the ability of SHUSA and its third-party vendors to convert, maintain and upgrade, as necessary, SHUSA’s data processing and other information technology infrastructure on a timely and acceptable basis, within projected cost estimates and without significant disruption to our business; (18) SHUSA’s ability to control operational risks, data security breach risks and outsourcing risks, and the possibility of errors in quantitative models and software SHUSA uses in its business, including as a result of cyber-attacks, technological failure, human error, fraud or malice by internal or external parties, and the possibility that SHUSA’s controls will prove insufficient, fail or be circumvented; (19) changing federal, state, and local tax laws and regulations, which may include tax rates changes that could materially adversely affect our business, including changes to tax laws and regulations and the outcome of ongoing tax audits by federal, state and local income tax authorities that may require SHUSA to pay additional taxes or recover fewer overpayments compared to what has been accrued or paid as of period-end; (20) the costs and effects of regulatory or judicial actions or proceedings, including possible business restrictions resulting from such actions or proceedings; and (21) adverse publicity and negative public opinion, whether specific to SHUSA or regarding other industry participants or industry-wide factors, or other reputational harm; and (22) acts of terrorism or domestic or foreign military conflicts. In this regard, during the first quarter SHUSA assessed its exposure to clients in Russia and Belarus and does not believe it has any significant risk with respect to these clients; and (23) the other factors that are described in Part I, Item IA – Risk Factors of SHUSA’s Annual Report on Form 10-K for 2021. Because this information is intended only to assist investors, it does not constitute investment advice or an offer to invest, and in making this presentation available, SHUSA gives no advice and makes no recommendation to buy, sell, or otherwise deal in shares or other securities of Banco Santander, S.A. (“Santander”), SHUSA, Santander Bank, N.A. (“SBNA”), SC or any other securities or investments. It is not our intention to state, indicate, or imply in any manner that current or past results are indicative of future results or expectations. As with all investments, there are associated risks, and you could lose money investing. Prior to making any investment, a prospective investor should consult with its own investment, accounting, legal, evaluate independently the risks, consequences, and suitability of that investment. No offering of securities shall be made in the United States except pursuant to registration under the Securities Act of 1933, as amended, or an exemption therefrom.
